Portfolio

+41 76 602 97 66

Nationality: French

📍 Geneva, Switzerland
Open to nationwide relocation
Available immediately

5+ years of experience in IT, specialized in Azure cloud infrastructure, automation (IaC), and CI/CD. Proven track record with enterprise environments in Switzerland (Tag Heuer), including migrations, performance monitoring, and system integration. Currently improving German skills (target B2) to integrate more effectively into multilingual teams.

Experiences

CLOUD & DEVOPS ENGINEER (TRAINING AND PERSONAL PROJECTS) MAR 2024 – PRESENT

- Focusing full-time on strengthening Azure cloud engineering and DevOps skills.
- Building hands-on labs: Azure VMs, networking, AKS, App Services, Terraform, ARM templates.
- Practising CI/CD automation via Azure DevOps and GitHub Actions.
- Applying security best practices: Azure AD, Key Vault, RBAC, network isolation, monitoring and cost optimisation.
- Building a portfolio website that highlights real-world projects in Azure administration, Kubernetes orchestration, and infrastructure as code with Terraform.
- Ongoing preparation for AZ-104, AZ-400 and CKAD certifications; AZ-900 completed.

Additional Achievements:

- Driving licence (completed)
- Completed solo volunteering and cultural exchange stays via Worldpackers.
- German language skills (currently improving, target B2)

CLOUD SPECIALIST | MAR 2023 – DEC 2023 ACADEMIC WORK – CLIENT: TAG HEUER (1600 WORKERS) LA CHAUX-DE-FONDS (SWITZERLAND)

- Integrated 10+ project environments into Azure production, ensuring compliance with internal standards and streamlined deployments.
- Produced and standardised 15+ architecture and network diagrams (topologies, specifications), enhancing clarity and maintainability.
- Implemented Azure Monitor dashboards for 40+ resources, reducing incident detection time by ~25%.
- Optimised Azure costs via Pricing Calculator, achieving ~15% projected cost savings.
- Supported Azure Web Apps deployments (OAuth2, Nginx, App Service) and IaC pipelines for VM provisioning.
- Led migration initiatives: on-premises to Azure (Azure Migrate), VM redeployments and resource relocation.
- Delivered knowledge transfer to upskill 3-5 team members on Azure monitoring and resource management.
- Collaborated with development and project teams to ensure Azure environments met security and performance requirements.
- Contributed to the definition and enforcement of cloud governance policies and naming conventions across environments.

Skills

Cloud & Infrastructure

- Microsoft Azure (VM, App Services, Functions, AKS, Azure SQL, Storage, Key Vault, Application Gateway, VPN Gateway, Azure Monitor)
- Office 365, Exchange Online, Intune, Azure AD

Virtualisation & Systems

- Windows Server, Linux
- VMware, Hyper-V, Active Directory, GPO

Networking & Security

- TCP/IP, DNS, DHCP, VPN, routing, firewalls
- Identity & access management, hardening, monitoring

DevOps & Containers

- Docker, Kubernetes, Helm
- CI/CD (Azure DevOps, GitHub Actions)

Automation & Scripting

- PowerShell, Bash, Python, Azure CLI
- Infrastructure as Code (Terraform, ARM/Bicep)

Methods & Practices

- ITIL, Agile/Scrum
- Incident, problem & change management, documentation

Certifications

AZ-900

AZ-104 (In progress)

Terraform Associate (In progress)

NSE1, NSE2, NSE3

SYSTEM & AUTOMATION ENGINEER | MAR 2022 – MAR 2023

INETUM - CLIENT: THALES ALENIA SPACE (+27000 WORKERS) - TOULOUSE (FRANCE)

- Resolved complex Level 3 incidents on CAI, cutting escalation rates by 30%.
- Developed PowerShell automation scripts to accelerate application lifecycle operations (installation, patching and upgrades).
- Optimised deployment workflows, minimising manual interventions and ensuring environment consistency.
- Coordinated with cross-functional teams to align support with project milestones and operational readiness.
- Standardised compliance with aerospace security and availability standards by formalising procedures and embedding best practices.
- Contributed to documentation efforts to improve knowledge sharing and reduce resolution time.

APPLICATION INTEGRATOR | MAR 2020 – DEC 2021

CAPGEMINI - CLIENT: DASSAULT AVIATION (340000 WORKERS) - TOULOUSE (FRANCE)

- Planned, tested and executed application updates across enterprise systems with minimal downtime, ensuring business continuity.
- Managed end-to-end application integration (component validation, deployment and post-deployment usability checks).
- Implemented and deployed automation scripts (Python, Ansible, Terraform, Shell) for provisioning, monitoring and optimisation of resources.
- Mitigated critical incidents under ITIL framework, improving SLA compliance and reducing MTTR.
- Coordinated with developers, infrastructure teams and business units to ensure smooth delivery of application services.
- Acted as Sustainability Referent, driving IT initiatives to reduce energy consumption and promote sustainable infrastructure practices.

IT TECHNICIAN | DEC 2018 – SEP 2019

OCEATECH EQUIPEMENT HEALTHCARE – TOULOUSE (FRANCE) – 14 WORKERS

- Provided L1/L2 support via hotline for healthcare professionals (software, hardware, medical devices).
- Performed remote and on-site IT maintenance, troubleshooting and application configuration.
- Delivered training sessions for healthcare workers across private practices and hospitals.
- Managed concurrent tickets daily while maintaining high service quality and responsiveness.

Education

GERMAN LANGUAGE CERTIFICATION | MAR 2024 – AUG 2024

THE BALKAN SCHOOL OF LANGUAGES - NEUCHÂTEL (SWITZERLAND)

- German A1
- German A2

MASTER PROJECT MANAGER CLOUD INFRASTRUCTURE AND CYBERSECURITY

| DEC 2019 – DEC 2021 - IPI / IGS, TOULOUSE (FRANCE)

Equivalence: Master II

BACHELOR OF SCIENCE IN COMPUTER SCIENCE | NOV 2016 – OCT 2018

SUPINFO, TOULOUSE (FRANCE) / CASABLANCA (MAROC)

Equivalence: Bachelor

BACCALAURÉAT S – ENGINEERING SCIENCES SPECIALIZATION | 2010

LYCÉE DE MAMOUDZOU (MAYOTTE)

Equivalence: Swiss Maturité

Languages

French - C2 (Native)

English - C1

German - B1 (currently improving, target B2)
